

New Source Review newspaper advertisements for construction permit applications, December 27, 2007. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: December 25, December 26, or December 27, 2007. Public notices are generally published every two weeks. The previous publication of public notices was November 29, 2007.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Alcoa, Inc. – Tennessee Operations with a mailing address of 2300 North Wright Road, Alcoa, TN 37701. They seek to obtain an air contaminant permit (Division identification number: 05-0090-67/61541) for modification of their pusher preheat furnaces located at the same address. This existing operation consists of 27 preheat furnaces used to preheat aluminum prior to the hot rolling process. The requested modification is for the addition of two (2) new larger preheat furnaces with low nitrogen oxide (NOx) burners and flue gas recirculation and the elimination of some of the other preheat furnaces. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. Steven Simpson is the assigned Division person.

For the Blount County *Maryville Daily Times* -- published once on or before Thursday, December 27, 2007.

The applicant is Lee Beissel Farm with a mailing address of 371 Corinth Church Road, Mc Donald, Tennessee 37353. They seek to obtain an air contaminant permit (Division identification number: 06-0232-01/61522) for construction of a Wood Waste Disposal Operation at 371 Corinth Church Road, Mc Donald, Tennessee 37353. This proposed operation would consist of a skid-mounted, vertically positioned incinerator and used to dispose of clean wood waste. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Bradley County *Cleveland Daily Banner* -- published once on or before Thursday, December 27, 2007.

The applicant is Lewis Wood Products with a mailing address of P.O. Box 1018, Elizabethton, TN 37643. They seek to obtain an air contaminant permit (Division identification number: 10-0071-01/61556) for construction of a Woodworking Operation located at 410 Cherokee Park Drive, Elizabethton, TN 37643. The operation will consist of various saws, a notcher, and associated equipment and is used to manufacture wood pallets. There would be physical construction. There would be an increase in the regulated air contaminants emitted by this source. Mr. D. Logsdon is the assigned Division person.

For the Carter County *Elizabethton Star* -- published once on or before Thursday, December 27, 2007.

The applicant is Star Manufacturing International, Inc. with a mailing address of 265 Hobson Street, Smithville, TN 37166. They seek to obtain an air contaminant permit (Division identification number: 21-0055-02/61428) for the construction of a Laser Cutting Operation located at the same address. This existing operation consists of one (1) CNC Laser Cutter used to accurately cut steel sheets in the production of commercial kitchen equipment. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Ms. Elizabeth Peeler is the assigned Division person.

For the DeKalb County *Smithville Review* -- published once on or before Thursday, December 27, 2007.

The applicant is Minco, Inc. with a mailing address of 510 Midway Circle, Midway, TN 37809. They seek to obtain air contaminant permits for modification of a fused silica manufacturing operation at the same address, as follows:

- (1) Existing fused silica processing operation (32-0129-01/61565)
- (2) Existing raw material handling and storage operation (32-0129-03/61568)
- (3) New crushing and screening line No. 2 (32-0129-46/61569)
- (4) New primary crushing line No. 2 (32-0129-47/61566)

This existing operation consists of crushing, screening, and blending equipment used to process raw materials for fused silica production. The requested modification is to increase the allowable production rate at the existing unloading and production operations, and to add a new primary crushing line and a new crushing and screening line. Baghouses are used for pollution control of particulates at existing and will be used at new operations. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. T. Blake is the assigned Division person.

For the Greene County *Greeneville Sun* -- published once on or before Thursday, December 27, 2007.

The applicant is Standard Construction Company, Inc. with a mailing address of P.O. Box 38289, Germantown, TN 38183-0289. They seek to obtain an air contaminant permit (Division identification number: 55-0102-01/61524) for construction of an Asphalt Drum Plant at 950 Denny Barber Road, Stantonville, TN 38397. This proposed operation would consist of a counterflow drum, three storage silos, pre-heater and associated equipment used to produce hot-mix asphalt. Recycled fuel oil would be used for fuel. A baghouse, cyclone, and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the McNairy County *Independent-Appeal* -- published once on or before Thursday, December 27, 2007.

The applicant is Childress Concrete Co. with a mailing address of 725 So Ellington Pkwy, Lewisburg, TN 37091. They seek to obtain an air contaminant permit (Division identification number: 59-0054-01/61367) for a Concrete Batch Plant located on 725 So Ellington Pkwy, Lewisburg, TN 37091. This existing operation consists of gravel and sand stockpiles, silos, conveyors, and associated equipment used to produce ready mix concrete. Wet suppression and a baghouse are used for pollution control. There would not be physical construction. Mr. K. McLain is the assigned Division person.

For the Marshall County *Tribune* -- published once on or before Thursday, December 27, 2007.

The applicant is Thornton's, Inc. with a mailing address of 10101 Linn Station Road, Suite 200, Louisville, KY 40223. They seek to obtain an air contaminant permit (Division identification number: 75-0609-01/61540) for construction of a Gasoline Dispensing Facility at 925 Old Fort Parkway, Murfreesboro, TN 37129. This proposed operation would consist of three (3) underground tanks and sixty-eight (68) gasoline nozzles. A Stage I and Stage II vapor recovery would be used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Rutherford County *Daily News Journal* -- published once on or before Thursday, December 27, 2007.

The applicant is Yorozu Automotive Tennessee, with a mailing address of 395 Mt. View Industrial Drive, Morrison, TN 37357. They seek to obtain air contaminant permits for a Surface Coating Operation located at the same address as follows:

(1) Thermal Oxidizer (Division identification number: 89-0075-04/61530). This proposed operation would consist of one (1) 3.0 MMBtu/hr thermal oxidizer. The thermal oxidizer would be used to oxidize an oil/water waste stream. Natural gas would be used as auxiliary fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. H. Flores is the assigned Division person.

(2) Surface Coating Spray Booth (Division identification number: 89-0075-05/61531). This proposed operation would consist of a single spray booth and associated equipment used to coat returnable containers, internal racks, and facility equipment. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. H. Flores is the assigned Division person.

For the Warren County *Southern Standard* -- published once on or before Thursday, December 27, 2007.

The applicant is MAPCO Mart #3428 with a mailing address of 7102 Commence Way, Brentwood, TN 37027. They seek to obtain an air contaminant permit (Division identification number: 94-0293-01/61509) for construction of a Gasoline Dispensing Facility at 1501 Highway 96 West, Franklin, TN 37027. This proposed operation would consist of three (3) underground tanks and twenty (20) gasoline nozzles. A Stage I and Stage II vapor recovery would be used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Williamson County *Williamson AM* -- published once on or before Thursday, December 27, 2007.
